EDITORIAL

African Journal of Agriculture and Food Security is a peer-reviewed open access journal that distributes articles in all parts of food science, food innovation, food security, farming sciences, ecological science, and worldwide change.

Global Journal of Food and Agricultural Sciences is a peer-reviewed, open access journal that publishes article in all aspects of food and agricultural sciences.

All articles distributed by this diary are made uninhibitedly and forever open online quickly upon distribution, without membership charges or enlistment obstructions. Article-preparing charges: African Journal of Agriculture and Food Security demands an article-preparing charge of \$500 (USD) for each article acknowledged for distribution. The diary doesn't charge an accommodation expense. Creators are needed to pay the composition taking care of expense solely after their original copies have been surveyed and acknowledged for distribution by an editorial manager. Creators can demand a waiver or markdown during the accommodation cycle as the diary regularly forgo charges for creators from low-pay nations. ISJ balances distribution costs – including the expense of friend survey the board, diary creation, and internet facilitating and filing by charging an Article Preparing Charge (APC), to writers, establishments or funders for each article distributed. This distribution charges shift by diary and are payable upon article acknowledgment [1].

Companion survey strategy: Companion survey is the framework utilized by Worldwide Diary of Food and Horticultural Sciences to evaluate the nature of an original copy

before it is distributed. Qualified scientists in the important exploration region survey submitted compositions for innovation, legitimacy and importance to assist editors with deciding if the original copy ought to be distributed or not [2].

Worldwide Diary of Food and Horticultural Sciences works a twofold visually impaired friend survey framework, where the analysts of the paper will not become acquainted with the character of the author(s), and the author(s) will not become more acquainted with the personality of the commentator. The benefit of twofold visually impaired friend survey is that it disposes of inclination [3].

Original copies submitted to this diary will by and large be checked on by at least two specialists who will be needed to assess whether the composition is logically strong and intelligent, regardless of whether it copies previously distributed work, and whether the original copy is adequately clear supposed to be available for public viewing. The Editors will arrive at a choice dependent on these reports and, where important, they will talk with individuals from the Article Board [4].

Our exploration is openly accessible to all, from the hour of distribution. Perusers needn't bother with a membership or to enlist before they can get to our articles. High perceivability: ISJ permits greatest perceivability of articles distributed in the diary as they are accessible to the vastest conceivable logical effort, including to the overall population. Rapid distribution: The time period among acknowledgment and distribution is around 3 weeks. All ISJ diaries offer a quick distribution plan. Rigorous peer-audit: ISJ is worked by a group of experienced proficient editors. We work intimately with scholarly editors and commentators to give creators a productive, reasonable, and useful surveys. Post-distribution remarks: ISJ permits perusers and writers to trade thoughts that are straightforwardly available from the full-text article [5]. International readership: All articles are being gotten to from more than 200 nations around
