EDITORIAL NOTE

African Journal of Geography and Regional Planning ISSN2736-1586 is a companion surveyed, open access diary that gives a discussion to the distribution of inventive examination articles in all parts of topography and provincial arranging. The diary distributes universally contributed exact examinations and audits of exploration on these points just as articles on the consequences of examination, informative methodologies, and book surveys. The points of the diary incorporate the accompanying

To distribute articles managing all spaces of human and actual topography. Articles managing either the assembled climate or how people make, see, oversee, and impact space, or articles that analyze the regular habitat, and how life forms, environment, soil, water, and landforms deliver and associate.

To distribute critical articles gave to the investigation of the grounds, the highlights, the occupants, and the marvels of Earth. In this sense, articles concerning spatial examination of the normal and the human wonders, region contemplates (spots and areas), investigation of the human-land relationship, and exploration in the Earth sciences. human geology and actual topography

Articles managing the hypothetical, methodological, and pragmatic parts of human-climate connections are gladly received, alongside imaginative or interdisciplinary methodologies that have a mental accentuation.

Articles committed to the distribution of examination which uses geographic methodologies (human, physical, nature-society and GIScience) to determine human issues that have a spatial measurement. These issues might be identified with the evaluation, the board and portion of the

Papers are welcomed on any topic including the use of topographical hypothesis and system in the goal of human

issues. This may remember papers for the strategies, issues and aftereffects of natural or potentially friendly exploration, just as those worried about the standards, approaches and outcomes of asset the executives and designation. Articles are refereed before distribution.

All articles distributed by this diary are made uninhibitedly and forever open online promptly upon distribution, without membership charges or enlistment obstructions.

Writers of articles distributed in this diary are the copyright holders of their articles and host conceded to any third get-together, ahead of time and in ceaselessness, the option to utilize, recreate or disperse articles.

Friend survey is the framework utilized by African Journal of Geography and Regional Planning to evaluate the nature of a composition before it is distributed. Qualified scientists in the pertinent examination region evaluate submitted compositions for creativity, legitimacy and importance to assist editors with deciding if the original copy ought to be distributed or not.

It's anything but a twofold visually impaired friend audit framework, where the analysts of the paper will not become more acquainted with the character of the author(s), and the author(s) will not become more acquainted with the personality of the commentator. The upside of twofold visually impaired friend audit is that it disposes of predisposition. Compositions submitted to this diary will for the most part be looked into by at least two specialists who will be needed to assess whether the original copy is experimentally solid and cognizant, regardless of whether it copies previously distributed work, and whether the original copy is adequately clear supposed to be available for the public. The Editors will arrive at a choice dependent on these reports and, where important, they will talk with individuals from the Editorial Board.

The diary is disconnected and ordered in: Citefactor, Index Copernicus, Academic Resource Index, WorldCat, Google Scholar, Rootindexing, AcademicKeys, Open J-Gate.
